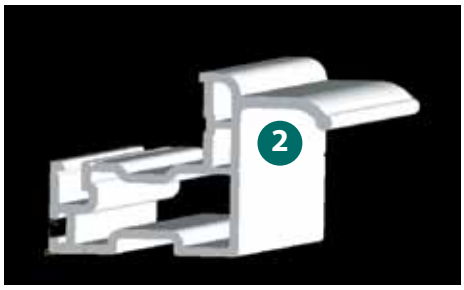
Efficiently Beautiful

The Harmony 100 Series double hung window is designed to enhance your home's appearance while increasing its comfort level. The contour look of the welded master frame offers a more traditional wood window exterior appearance.

1 The low profile sloped sill maximizes rain runoff. The new soft curved welded sash design provides a classic **2** "wood like" interior appearance while



allowing maximum glass viewing. The engineered channels allow for dual layers of weather stripping to minimize air infiltration. Efficient "Warm Edge" insulated glass maximizes energy performance and minimizes unwanted sound transmission, reducing not only heating and cooling bills, but also outside noise. And finally add the natural beauty of the maintenance free finish of 100% vinyl, which retains its sheen year after year.

UltraFlect... the top performing dual Low-E glass option

Unlike traditional LowE glass, that has 1 coating on 1 glass surface, UltraFlect uses an unparalleled combination of 2 different High Tech reflective coatings with one coating on each piece of glass. UltraFlect represents the most dramatic advance in window glass technology in more than 10 years. Only UltraFlect breakthrough technology provides the R-5 performance of triple pane glass with the durability and appearance of dual pane glass.
